PETITION FOR CERTIFICATE OF CORRECTION

Mail Stop: Amendment (No Fee)
Commissioner For Patents
P.O. Box 1450
Alexandria, VA 22313-1450

March 19, 2008

Sir:

By the present amendment, the end of claim 5 is corrected to change "second control signal" to "third control signal" for correction of inadvertent error. Regarding, reference is made to Figure 12, which shows an example of an arrangement which claim 5 can be read upon. More specifically, the first control signal of claim 5 can be read on the signal ENABLE 1, while the third control signal of claim 5 can be read on the signal ENABLE 2 shown in Figure 12. As also shown in Figure 12, the two signals ENABLE 1 and ENABLE 2 are both provided to a logical sum (OR) G4 gate. Correspondingly, the proposed amendment to claim 5 is to properly correlate the claim language to the arrangement such as shown in Figure 12. With regard to the this proposed amendment it is noted that it does not broaden the claim, but simply corrects an inadvertent error made in the typing of the claim.
